2022 & 2023

Live Classes

Each course is a 4-credit hour offering approved for Iowa, Minnesota, and Wisconsin insurance CE.

DAY	A	B	C	D
8:00 a.m. to 11:50 a.m.	What In The World Should We Do About Healthcare	Exceeding Retirement Goals	Creating Prosperity	MA Eligibility & LTC Partnership
12:45 p.m. to 4:35 p.m.	Social Security & Other Developed Nations	How to Become a Millionaire	Ethics: What is Right?	Working with Ethics

Classes are approved for four hours Insurance Continuing Education (CE) in Iowa, Minnesota, and Wisconsin regardless of the location you attend. The two courses with ETHICS in the title meet the ethics requirement for IA, MN & WI resident agents and both can be taken in the same renewal period. MA Eligibility & LTC Partnership satisfies the subsequent 4 hour refresher course for the "MA Eligibility & the LTC Partnership Program" in Iowa and Minnesota.

Creating Prosperity

Your clients' financial future looks brighter when the economy is prosperous. We will examine key financial and economic indicators and legislation of prosperous eras to determine how to create prosperity for your clients.

Exceeding Retirement Goals

Most of us work hard all of our lives to finally enjoy retirement. We take a look at pivotal ways to ensure we can help our clients surpass their ideals by considering the science of good health in older ages, getting the most out of our savings, and finding low-cost areas to live.

How to Become a Millionaire

People have been working hard to accumulate wealth throughout the ages, yet few ever find their way to financial freedom. In this course, we'll look at a few key books and methods to share the secrets of how you and your clients can become millionaires.

Ethics: What is Right?*

It should be simple, but it's not always easy to determine the "right" course of action. Sometimes our bias and preconceived notions point us in the wrong direction. As we further consider ethical concepts like fairness and equality, we will try to define, "What is right?"

Working with Ethics*

The double meaning is intended: We will "work" through several ethical questions to better determine how to uphold ethical standards in the workplace.

*These courses meet the ethics requirement in IA, MN, & WI.

What In The World Should We Do About Healthcare?

In ranking after ranking, America lags behind other developed nations in offering affordable healthcare solutions. By looking at what other countries are doing right, and why America doesn't measure up, we hope to lend answers to the question, "What should we do about healthcare?"

Social Security & Other Developed Nations

Social Security is the backbone of American retirement planning. In this course, we'll learn more about the history of this pivotal program as well as current financing updates. We'll also consider what our global partners are doing in the world of Social Insurance to answer the question, "How does retirement planning in the US stack up?"

MA Eligibility and LTC Partnership Program

The market of LTC Insurance is constantly changing and the Medical Assistance (MA) Partnership initiative is at the forefront. This course offers current information on partnership legislation, but also enhances your education of the senior market so you are better able to inform your clients of various coverage options.

Satisfies the subsequent 4 hour refresher course for the "MA Eligibility & the LTC Partnership Program" in Iowa and Minnesota. Also approved for MN Mortuary Science General CE.

We offer CE classes that give agents:

information of value to your business or personal finances

involvement in your learning experience

entertaining and engaging presentations

interesting topics with relevant examples
